In order for Children to be safe and enjoy their time in Clannlife Fitness we implement the following procedures;

If a Risk is Identified

If a new risk is identified it is brought to the attention of the Club Manager Niamh Fay. An Analysis Report of the Risk is written up and discussed with the DLP's Patricia Kelly and Evan Mahon. Depending on the type of Risk a solution is then drawn up on how to lessen the risk of this causing harm to a child and this is then put in place. The Risk Assessment is then updated and circulated to all staff.

Staff Member under investigation

If a member of Staff is under any type of investigation in relation to a child availing of the services of Clannlife Fitness then this member of staff is taken off all duties concerning children. A report is made on the investigation. It is put into the hands of the DLP's and HR who will investigate further and deal with the situation appropriately until it is resolved and all concerned are satisfied with the outcome. The member of staff can only be reinstated on duties in relation to children once everyone is satisfied with the outcome. Should the outcome be unsatisfactory then HR will deal with procedures for termination of the employees working contract with Clannlife Fitness and the information will be passed onto the relevant outside organizations.

New Employees

The recruitment of any person as a member of staff involves interview, reference checks, garda vetting plus immediate partaking in Safeguarding 1 course in person or e learning.
